Golden Trout Camp Gear List

The weather in the Golden Trout area can be highly variable. Cool mornings can lead to warm days, wet afternoons, and chilly nights. Last summer the low and high temperatures during the same period as your upcoming visit were a low of 44 and a high of 73 with 0 inches of precipitation. With the El Nino system we are experiencing this year we might expect a bit more precipitation, often in the form of brief afternoon thunderstorms. Please remember that there is a 30 lb. maximum per adult and 20 lb. maximum per child available for pack-in on the donkeys. So try to stick, as best you can, to the list provided. Should you wish to bring in more, you can either carry it in on your own, or contact the Cottonwood Pack Station to hire a mule to bring in extra gear/supplies.
